

Ensuring Parent Voice has a SEAT at the Table **Kentucky's Statewide Birth Parent Advisory Council**

OUR VISION

Through a collaborative partnership with the Department of Community Based Services, we envision being a voice for all Kentucky parents to be seen, heard, protected, and supported so no family feels alone.

WHO WE ARE

KY SEAT is a council of biological parents—both mothers and fathers—who have past experience with the child welfare system.

WHAT WE DO

We aim to empower parents to advocate for themselves. We give valued input to key decision makers and service providers for an accountable, transparent child welfare system that supports families with compassion and respect.
