

SPREAD THE WORD: BABIES NEED YOU TO DO THE CENSUS!

Babies and young children need a **safe place to be cared for** while parents are at work, and parents need child care at an affordable cost.

The U.S. Census that takes place every 10 years plays a role. The **amount of funding Kentucky receives for programs** like CCAP (the Child Care Assistance Program) is based in part on the 2030 Census count.

Spread the word now
about Census 2030!

When everyone is counted, our community receives the resources and supports we need.
